

The United States And The Paris Agreement

Select Download Format:

Obama responded to his submission with brevity, as he did in his previous remarks, and without the usual presidential flourish. He praised the agreement as "historic" and "ambitious" and said it would "help protect the world's climate while creating jobs and economic growth." He also praised the agreement as "historic" and "ambitious" and said it would "help protect the world's climate while creating jobs and economic growth."
